

Sad Demise of Rainer Heubach Owner of Heubach Group

Langelsheim, 28.10.2020. – Rainer Heubach passed away on October 21, 2020 after a brief and serious illness in Salzburg. The former chairman and owner of the Heubach Group was an entrepreneur and visionary throughout his life.

Rainer Heubach took over the business from his father Dr. Hans Heubach in 1973 and developed the company for many decades. In particular, the company's internationalization is due to his strategic decisions. With the acquisition of the pigment activities of E.I. DuPont de Nemours of Newark, N.J. and the establishment of Heubach Inc. Rainer Heubach secured the important presence in North America. In 1988, Heucotech Ltd. was founded in Fairless Hills, PA.

The company took further steps towards internationalization by founding Heubach Colour Pvt. Ltd. in India (1994) and Hangzhou Heubach Pigment Co. Ltd. in China (2009). The takeover of the lightfast pigment business from Bayer in 2002 and the organic pigments business from Avecia (ex- ICI) mark further important steps in the expansion and internationalization of the group.

Rainer Heubach built the Heubach Group from a German medium-sized company into a global leader in the color pigment industry. In 2015, he handed over his business responsibilities to his son Johann Heubach who will continue the family tradition and grow the business in the spirit of his father.

Rainer Heubach was a family entrepreneur who was characterized by a long-term vision, enthusiasm, curiosity, and a sense of responsibility towards his employees. He was known for his assertiveness and his in-depth specialist knowledge. He has always been valued as a tough but fair business partner in our industry.

Signature:

The Heubach Group, with locations in Germany, the USA, India and China, is an internationally active manufacturer of corrosion protection pigments as well as organic and inorganic color pigments, hybrid pigments and pigment preparations for use in the paint, plastics, ink, and building industries, as well as for other high-quality special applications.
